

see what Delta can do™

2011 | 2012

Kitchen + Bath Catalog

Water transforms you.

We're happy to help deliver it.

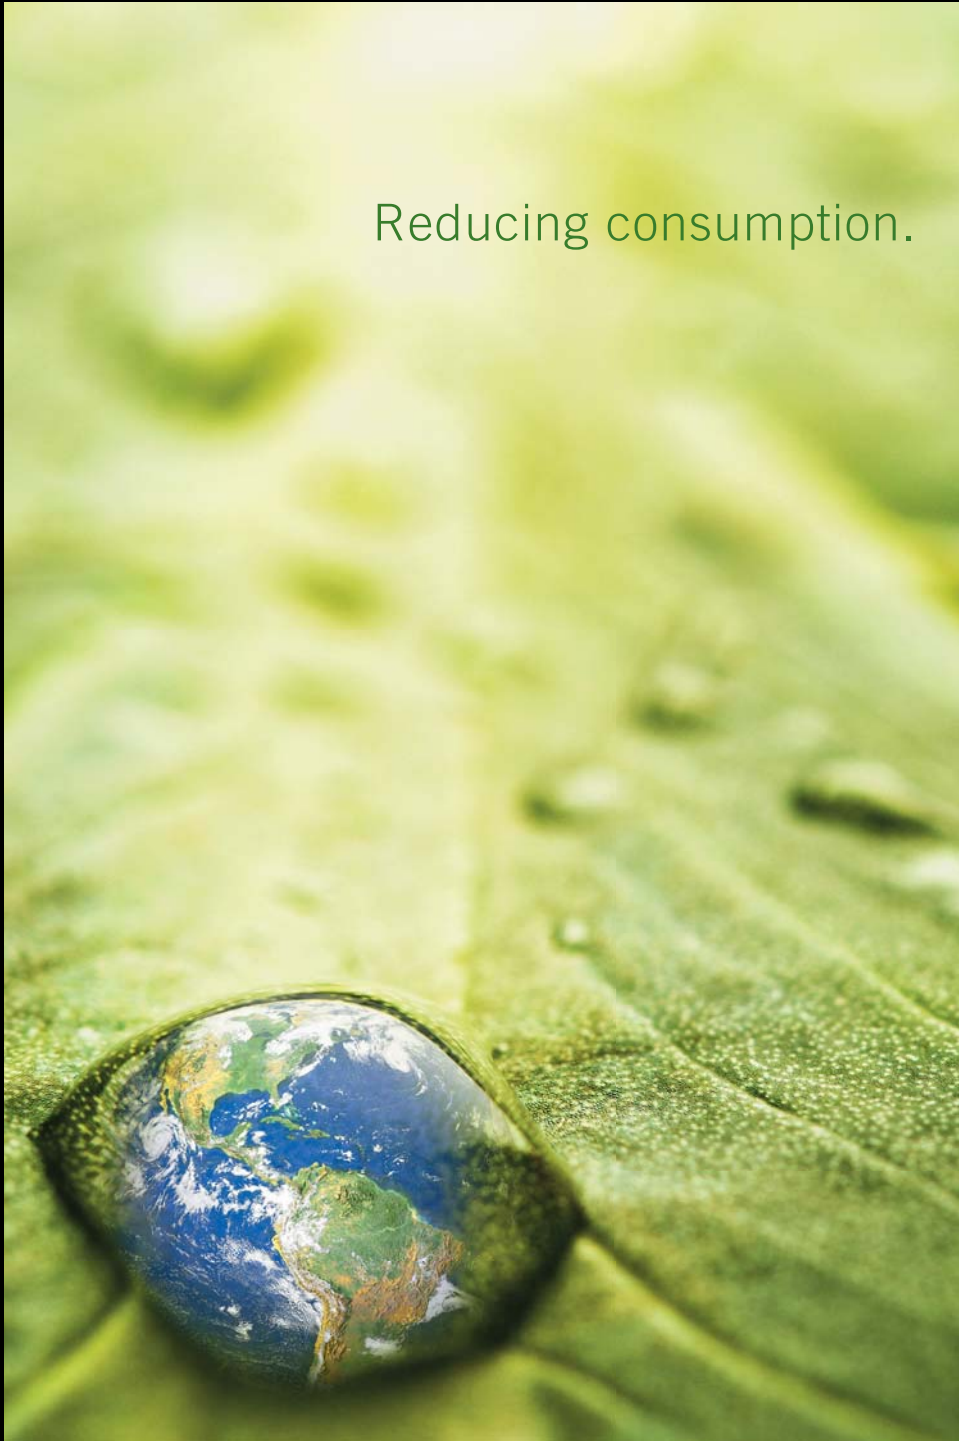

We interact with water all day long—from the time we hit the shower in the morning to the time we brush our teeth before bed.

It refreshes us. Cleanses us. **Warms** us. Nourishes us. And Delta® designs products that make the most of every interaction.

Enjoy.

Reducing consumption.

Responsible to our customers and to the Earth. To provide products that address today's water conservation concerns.

Resourceful in the way we create smart water delivery solutions, so that they maximize water efficiency and the product life span. All without sacrificing the comfort and convenience of the user experience.

Enhancing experiences.

As Delta® strives to achieve and increase water-efficiency across our lines, we take our role as a WaterSense® partner very seriously. Delta Faucet Company is committed to working with the EPA to encourage efficient use of water resources and actively protect the future of our nation's water supply.

Currently, over 50% of Delta's bath suites feature showerheads and handshowers that meet WaterSense requirements, using between 20–40% less water than the industry standard*. Our WaterSense-labeled lavatories use 32% less* water—and all perform as well or better than their less efficient counterparts.

*Based on flow rate for showerheads and handshowers of 1.5 gpm or 2.0 gpm versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.5 gpm; and flow rate for lavatory faucets of 1.5 gpm versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.2 gpm.

Delta products can contribute to a sustainable home with long-lasting durability, as well as water-saving technologies that meet WaterSense® standards and contribute to LEED® certification. Look for these icons to quickly identify products promoting DIAMOND™ Seal Technology and water-efficiency.

= DIAMOND Seal Technology

= Water-Efficient Product

Kitchen Faucets: flow rate of 1.5 gpm or 1.8 gpm versus Industry Standard ASME A112.18.1/ CSA B125.1 of 2.2 gpm and meeting CALGreen standards.

Lavatory Faucets: flow rate of 1.5 gpm versus Industry Standard ASME A112.18.1/ CSA B125.1 of 2.2 gpm and meeting CALGreen standards.

Showerheads and Handshowers: flow rate of 1.5 or 2.0 gpm versus Industry Standard ASME A112.18.1/CSA B125.1 of 2.5 gpm and meeting CALGreen standards.

= WaterSense®-Labeled Product

= CAVT compliant model available to meet California AB1953 and Vermont Legislation S152. Consult with your Delta Kitchen and Bath Specialist or visit deltafaucet.com.

Delta® faucets are available in a full spectrum
of finishes that add **warmth**, texture, depth,
and **color** to your kitchen and bath.

---------------	-----

There's a place where
family and friends gather.

Where kitchens tend to trump couches.

Why do people congregate in the kitchen when there are comfy seats sitting empty in the other room? Warmth and togetherness? Or maybe they like hanging out by the **amazing** Touch₂O® Technology faucet. **Touch** it on. Touch it off. It keeps your faucet clean and free of contaminants when your hands are messy. And keeps the food prep (and conversation) **flowing**.

Kitchen innovations.

deltafaucet.com/smartkitchen

Simplified Installation.
Everything you need is in the box, including a minimum of 32 inches of InnoFlex PEX waterways, which saves the cost of additional supply lines.

DIAMOND™ Seal Technology.

Delta's patented DIAMOND Seal Technology combines a disc embedded with real diamonds with InnoFlex® PEX waterways, resulting in incredible durability and reliability. In fact, our faucets are designed and tested to last up to five million uses.

No Leaks.

One-piece InnoFlex PEX supply lines and our DIAMOND™ Valve featuring no dynamic seals reduce the chance of leaks to near zero.

No Worries.

Engineered to last up to ten times longer than the industry standard.

Industry standard based on ASME
A112.18.1 of 500,000 cycles.

No Lead.

Once inside the faucet, water does not come in contact with potential metal contaminants.

Yes, we have both beauty and brains.

Touch2O® Technology.

Sometimes your hands can use a hand. That's why Delta® developed Touch2O Technology for the kitchen. Simply touch anywhere to start or stop the flow of water. When your hands are messy, you can use your forearm or wrist to keep your faucet clean and to avoid cross-contamination.

Multi-Flow™ Technology.

With a simple touch of the toggle, you can switch between stream and spray to instantly increase the flow of water for different tasks. The Multi-Flow wand stays engaged with just one click while supplying a water-efficient 1.5 gpm.

MagnaTite® Docking.

This attractive feature keeps the pull-down spray wand firmly in place when not in use. Thanks to the powerful integrated magnet.

In the Kitchen.

Looking for just the right faucet to place on your kitchen sink? You're at the right place. Traditional, contemporary or transitional... no matter what your preference, you'll find just the style you're looking for here. And faucets that feature smarts like Touch2O® Technology, MagnaTite® docking or Multi-Flow™ Technology. The only problem will be deciding on a favorite.

Your life doesn't
revolve around faucets.

Then again, maybe it does.

Delta® designs innovative bath products that make your daily activities more convenient, stylish, and, dare we say, enjoyable.

From traditional two-handles to wall mounts that complement a vessel sink to our new touch faucet for the bath, Delta delivers. So even if you don't think about it every day, you can't help but notice.

Bath innovations.

deltafaucet.com/smartbath

Touch2O® and Touch2O_{xt}™ Technology.

Touch it on. Touch it off. Or go completely hands-free. The choice is yours. Touch2O Technology brings the convenience of touch to the bathroom. And Touch2O_{xt} Technology gives you a little something extra with the added convenience of touch-free. Helps keep your faucet clean and reduce water consumption.

For a better, smarter water experience.

DIAMOND™ Seal Technology.

Delta's patented DIAMOND Seal Technology combines a disc embedded with real diamonds with InnoFlex® PEX waterways, resulting in incredible durability and reliability. In fact, our faucets are designed and tested to last up to five million uses.

MultiChoice® Universal.

When installing a shower, start with the MultiChoice Universal rough. It gives you the ultimate in flexibility because it works with all types of shower valves—whether you choose a shower that just controls the temperature or one that allows you to control temperature and water volume separately. When choosing a shower rough, the choice is obvious.

H2Okinetic Technology.®

It's more than just a shower. It's a full-body-massage-your-stress-away experience. H2Okinetic Technology doesn't just deliver water, it alters the shape of each water droplet for all-over water coverage that drenches your body in luxury.

In the Bath.

More and more, the bath is becoming a place that is a reflection of you—your style, your preferences—and an escape from daily stresses. Delta® has a variety of bath collections so you can find just about anything you dream of. Soft and romantic, or modern and streamlined. Traditional, contemporary or transitional—with finishes and accessories to help you create the perfect retreat.

It's doubtful he's thinking
about technology right now.

But we are.

How shaping the water droplets

maximizes water coverage.

How precisely **controlling**

the temperature assures consistent,

uninterrupted **luxury**. And how our

H₂Okinetic Technology® showerheads

are designed to make less water feel

like **more**, providing an incredible,

massage-your-stress-away shower

experience. Technology has

never looked (or felt) so good.

Shower innovations.

deltafaucet.com/smartshowers

In2ition®— Two-in-One Shower.

When the In2ition Shower is in its primary position, it functions like a regular showerhead. When you need to rinse from close range, simply remove the handshower. It's two showers in one beautifully convenient package.

MultiChoice® Universal.

When installing a shower, start with the MultiChoice Universal rough. It gives you the ultimate in flexibility because it works with all types of shower valves—whether you choose a shower that just controls the temperature or one that allows you to control temperature and water volume separately. When choosing a shower rough, the choice is obvious.

A truly shower-altering experience.

H₂Okinetic Technology®

Many of our showers are equipped with H₂Okinetic Technology, which provides a warm, luxurious shower experience. Larger droplets combined with a dense spray pattern results in a drenching water experience like no other.

Jetted Showers.

Upgrade your shower experience with a Delta® Jetted Shower™ System. Integrated shower jets open up new design options, plus you can add a handshower, additional body jets or a second showerhead for an even more customized, luxurious shower. Shower jets are available with nearly every 14, 17 or 17T Series shower trim.

Body sprays featuring H₂Okinetic Technology.

Looking for even more luxury in the shower? Consider adding body sprays featuring H₂Okinetic Technology. The ergonomically engineered spray heads shape each droplet for maximum coverage while retaining heat longer.

In the Shower.

Long gone are the days when the options for a shower were the rough and trim kits sitting in boxes on the shelf. Certainly, that's still an appropriate choice for many. But for those who want to orchestrate their shower down to the nth detail, well, that's a different story altogether.

Styles, functions and experiences abound. Showerheads, handshowers, body jets and sprays, Jetted Shower™ systems—in about any configuration you can envision. So, envision away...

Trim Options

Dual-Function Thermostatic Valve Cartridge

Our newest innovative valve cartridge for an enhanced shower experience. Keeps water temperature consistent ($\pm 3.6^\circ$) by actually measuring and monitoring the temperature of the water and automatically adjusting the water mix to maintain a more precise water temperature. Allows the user to control the temperature and volume independently. Temperature can be set in order to remain consistent shower after shower. Offered for all TempAssure® 17T Series Delta brand tub/showers.

All showerheads come without shower arm and flange, unless indicated otherwise.

As an enhancement to a custom shower, body sprays have the power to transform an experience from ordinary to extraordinary.

If you're looking for a particular faucet combination and you didn't see it in this catalog, check out our user-friendly website. You'll see a comprehensive collection there.

Browse by room, select the finish and accessories and see exactly how a faucet will look. Search for faucets by room/function, collection, price range, or model number. Save your ideas by clicking on "My Projects" on our home page. You can also check out recent product news, our dealer locator, frequently asked questions and installation tips.

Everything you need to make your selection easier is right online at deltafaucet.com. If you have any additional questions, contact us at 800.345.DELTA.

See more on our website: deltafaucet.com

Delta® is committed to sustainability and providing smart water delivery solutions that maximize water savings without sacrificing comfort and convenience. Our commitment to sustainability extends to waste reduction and the preservation of natural resources and the environment. That's why we choose to print on Forest Stewardship Council (FSC) certified paper.

Lithographix is ISO 14001 certified and generates 30% of its energy from 2,248 rooftop solar panels. Please help us preserve our planet. Please recycle this catalog when finished. The paper was made and printed in the United States.
